

Experience

Van Med Art Medical & Scientific Illustration | 2026 - Present

- Providing medical illustration services to healthcare professionals, medical technology companies, and law firms.

Georgia Department of Natural Resources | 2026

- Collaborated on a full color large-scale illustration poster for display.

Children's Hospital of Georgia | 2025

- Designed and produced a printed full-color patient education brochure, "Caring for Your Child's PICC". Award for Excellence in Research at Augusta University Graduate Research Day 2025.

Cincinnati Nature Center | 2025

- Created a printed full-color ornithological illustration poster featuring the Pileated Woodpecker for display and education during the center's featured programming.

Department of Medical Illustration, Augusta University | 2025-26

Graduate Student Research Assistant

- Assisted in systematic review research including literature search and research organization.

Student Medical Illustration Service

- Developed illustrations for Department of Sleep Medicine at the Medical College of Georgia.

Peer Educator, Graduate Anatomy and Physiology I, II

- Prepared first-year master's students for examinations.

Studio of Karen Warshal | 2023

Baltimore, Maryland

Classical Painting Apprentice

- Assisted artist Karen Warshal in classical drawing instruction.

Master's Project

Veterinary Gastrointestinal Anatomy and Pathology Interactive

Augusta University, in collaboration with the Educational Resources Center and University of Georgia College of Veterinary Medicine, 2025-26

Aided in development of veterinary review interactive for use by UGA College of Veterinary Medicine students preparing for final examinations. Created a series of original 2D veterinary illustrations spanning GI anatomy and pathology across multiple species, in direct collaboration with fourteen veterinary faculty members. Provided back-end integration of course content to platform including question prompts, answer selection, feedback responses, and supporting imagery. Developed optimized user interface prototype for subsequent student use.

Education

Augusta University | 2026

M.S. in Medical Illustration

GPA: 4.0

Maryland Institute College of Art | 2020

BFA, Drawing

Penn State Schuylkill | 2022-24

- Chemistry and Biology coursework
- Peer Chemistry II tutor
- Ornithology field research assistant
- Beta Beta Beta National Biological Honor Society, Associate Member

The Johns Hopkins University | 2018-20

- Biology coursework

Software

2D

- Adobe Photoshop
- Adobe Illustrator
- Adobe InDesign
- Adobe After Effects
- Microsoft Suite

3D and Interactive

- ZBrush
- Cinema 4D
- Adobe Substance 3D
- Tumult Hype
- Figma
- Unity

Traditional Media

- Graphite, Conte, Colored Pencil
- Oil Painting, Pen & Ink

Additional Skills

- Medical Legal Illustration
- Informational Design
- Interactive Design
- 2D & 3D Animation
- Veterinary Illustration
